PON–XL

MILEMAX

Milemax XL Traction and smooth tires are designed for the United States market by a Texas company. The XL Traction and Smooth tires are some of the largest tires in the industry. With wider flatter surface and special compounding you will get the best traction and longest life possible. The steer tires sizing and compounding will be the best option for severe applications where other tires fall short because of heat or steer axle overload.

Milemax branded Press-on solid tires use only the highest quality natural rubber compounds. Both our black and gray non-marking compounds provide the highest degree of resilience and tear strength. A high degree of resilience ensures a soft ride and contributes directly toward a cooler running, longer lasting tire. Milemax branded press-on solid tires are soft riding, cool running and longer lasting premium tires and the choice of Armadillo Tire; your True Partner.
